OUR PARTNERS

Castro Lighting

Founded in 1978, we are a lighting and design company situated in the Gondomar Municipality of Portugal. We specialise in a wide range of light fittings for the home, and take care of the initial design phase right through to final production.

We also design and build upholstery, home accessories and more.

Castro Lighting was founded in 1978 and, today, we are one of the world's leading interior design partners, working with clients both in Europe and across the globe.

Services

We design and manufacture lights for any setting, including pendants, table lamps, wall lights and more. We also manufacture tables, mirrors and other essentials for the home.

International Renown

You may have seen our work at various exhibitions across the world. In the first half of 2024 alone, we will have exhibited at the Light + Building trade fair in Frankfurt; Salone del Mobile in Milan; and the ICFF in New York - with many more shows to come.

Brass Masters

We've been handling brass for decades - it's one of the foundational materials we use. The entire production process takes place in our Gondomar factory, where our skilled craftsmen keep this historical practice alive.

Designs That Inspire

We've brought a pioneering spirit to the lighting and home decor industry and since our inception, we've never strayed from three core beliefs: that our designs should inspire; that we should use only the finest materials; and that our attention to detail should border on the obsessive.
